Career Objective

Motivated Artificial Intelligence and Machine Learning undergraduate with hands-on experience in building AI-driven applications, automation workflows, and computer vision systems. Skilled in Python, machine learning fundamentals, and full-stack AI project development. Seeking an entry-level AI/ML or software engineering role to apply problem-solving skills, data-driven thinking, and continuous learning to real-world industry challenges

---

Technical Skills

Languages : C, Java, Python, SQL (MySQL)

Machine Learning & AI: Machine Learning, Computer Vision, TensorFlow, MediaPipe, NumPy, Pandas.

Automation : UiPath , n8n

Developer Tools & Platforms: Git, GitHub, Google Colab

Experience

AI Engineer Intern ,ResDev Global Solution ,Certainti.ai — Aug 2025 – Sep 2025

- Completed hands-on training in Artificial Intelligence and Machine Learning concepts.
- Built and evaluated machine learning models using Python, TensorFlow, and Scikit-learn.
- Performed data preprocessing, model training, and performance evaluation on real datasets.

AIML Virtual Intern, Association with Eduskill and Google for Developer. — Apr 2025 – June 2025

- Developed an AI-based interview automation system for organizational use.
- Worked on backend development, API integration, and AI workflow design.
- Collaborated on building a full-stack AI application following industry practices.

Projects

Fee Concession Automation Using UiPath

- Designed and implemented an RPA solution using UiPath to automate the fee concession approval process.
- Reduced manual processing time and improved operational efficiency for the organization.

Farm Assist (Agent basedChatbot)

- Developed a bilingual (Tamil/English) AI-powered chatbot using React.js and n8n.
- Integrated APIs and webhook-based workflows for real-time farmer assistance.
- Improved accessibility and user engagement through conversational AI.

Motion Captureusing Mediapie and Unity

- Built a real-time human motion recognition system using OpenCV and MediaPipe.
- Integrated Python-based pose detection with Unity for 3D visualization.
- Enabled real-time movement tracking and interaction.

Achievements

- Earned a Java and Python Badge fromHackerRank - (Pavithran_25)
- Solved 80+ problems on LeetCode - (Pavithran_25)
- Contribute my Story in Anthology Hope’sTapestry ,Published by Let’s Write Publication.
- Participated in Hackathon conductedby Bhumi-Skilled and ICT Academy.

Education

B.E. in Artificial Intelligence and Machine Learning
K.S. Rangasamy College of Technology, Tiruchengode — Year of Passing : 2027
CGPA: 8.94 (upto 5th sem)

HSC
Sengunthar Matriculation Higher Secondary School, Tharamangalam — Year of Passing : May 2023
Percentage: 90%

SSLC
Sengunthar Matriculation Higher Secondary School, Tharamangalam — Year of Passing : March 2021
Percentage: 100%

Certifications

- Oracle Certified AI Foundation Associate (Global Certification)
- Certified from NPTEL Online Course (The Joy of Computing using Python - "Elite")
- Certified from NPTEL Online Course (Understanding Incubation and Entrepreneurship - "Elite+Silver")
